

Transfer To and From Broward College

Transfer to Broward College of Tunisia:

If you are a student who is coming from another post-secondary institution then you are considered a transfer student, unless you are entering as a freshman based on your High School diploma credentials and not based on your post-secondary transcripts.

If you are holding international transcripts, i.e., non-American transcripts, then you have to apply to WES for equivalency. We will use the WES report to decide your admission and to determine your class schedule.

Transfer from Broward College to another Florida state university

Broward College has partnered with public and private institutions to provide our students with a variety of transfer options. Students who have received an AA degree from an institution within the Florida College System are guaranteed admission with 60 semester hours into the State University System.
